US Business REPORTER

The Digital Research Tool of Business.

USBR Cloud Services

USBR Cloud Services is a free service for purchasers of reports, books, pamplets, and other media materials purchased through the USBR Research Store.

Our USBR Cloud Services will allow you to access your industry reports market research reports, economic reports, retail reports documents from whatever device you are using. You are automatically set up in our system upon your first purchase of a report through our Research Store.

Put Your Documents on All Your Devices.

Our cloud services automatically "pings" to your device. There's no arcane software to download . Its shear simplicity. There's no time that is wasted. Your documents follow you where ever you are in the world.

Manage All Your Content in One Place.

With our cloud services, you never misplace a report using our system. You can find it easily with our virtual cloud services "digital card" using a simple username and password combination. Further, our cloud services stores all types of content material which even includes free articles by our sister properties that you wish to store. You can even store free articles on our cloud services for your individual usage. Simply click "store " in the cloud site. Of course, you can always download any report that you purchase to your own hard drive as well.

A Truly Novel Approach.

There's nothing to set up. You have a personal page of what we call "collections" which lists all of your purchases and free documents/ articles together on the same system. With standard IP protocols and standards, your reports and documents are device-independent.
